**Resolution
Education and Health Policy Committee
Adult Literacy**

In recognition of the large number of adults in the 19 Delta and part-Delta counties in Northwest Mississippi, who seek to establish and/or improve reading skills, Delta Council offers its sustaining support for the Adult Literacy Program. This program has been brought to Delta Council through the cooperation of local leaders and the skill sets of a proven adult education model. Delta Council board members, officers, and the full membership earnestly support the expansion of this program into all 19 counties, and urge federal, state, local and private interests to join in support of this program which affects the lives of Delta families. Special recognition should be extended to those Delta leaders who have stepped forward to coordinate the instruction of this program.

We express special gratitude to the Delta Regional Authority and the USDA-RDA for their partnership in this endeavor. Of special significance, we are grateful to the private businesses in the region that that have stepped forward to provide financial support for this program:

BankPlus
Bayer CropScience
CoBank
Feild Cooperative
Guaranty Bank
Planters Bank
StaplCotn
