Resolution

Rice Check-Off Utilization

Delta Council acknowledges the vital importance of rice check-off programs and therefore, states its opposition to any actions, which contribute to the instability of these programs.

We specifically oppose the use of any Mississippi check-off funds in a way which aids to interfere with any sanctioned statewide check-off legislation or existing check-off program in any other rice-producing State. We urge any affiliated organization, national or State, which receives funds or allies itself with Mississippi to refrain from being associated with any such effort in any way.

Adopted by: Delta Council Board of Directors
November 12, 2018
