Resolution

Introduction of Vaccine

Delta Council is aware of the extraordinary work of the disease research and extension team of the Thad Cochran National Warmwater Aquaculture Center and applauds the team for the development of a vaccine which holds promise for the effective treatment of possibly the most costly disease in modern catfish production. ***For 3 years since discovery , the completion of commercial introduction of the product has not yet been achieved and*** Delta Council encourages USDA and the Delta Research and Extension Center-MSU to ~~work actively to commercialize the vaccine~~ ***expedite the process*** in a way which proves most economical, effective, and ensures the availability ***of the product*** commence to all farming operations. ~~as soon as practicable.~~

Adopted by: **Delta Council Board of Directors**
