Resolution

Cotton Research and Market Development: Non-Wovens

Delta Council views that USDA-ARS, MSU-MAFES and cotton industry research should be enhanced and accelerated to focus on the utility of cotton for the non-woven market. To that end, we strongly urge the National Cotton Council, Cotton Incorporated and USDA-ARS to exploit every opportunity which might exist in an effort to enhance cotton utilization in the non-woven markets through advanced technologies and market development/promotion.

Delta Council applauds the successful efforts of National Cotton Council and Cotton Incorporated related to cotton utilization research and market development/promotion.

Adopted by: Delta Council Board of Directors
