Resolution

Peanut Committee

At the request of peanut growers in the Mississippi Delta region who assembled in 2015, Delta Council formed a standing committee within the framework of the organization for a Peanut Committee among the other commodity-specific committees.

The committee will focus on production research, market development, farm policy, and promotion. The committee will also coordinate with the successful efforts of the national commodity organization and other multi-state, statewide, and regional organizations representing peanut growers. Upon the adoption of this resolution, the Peanut Committee will be working to represent the unique needs and interest of peanut growers in the 18-county region of Northwest Mississippi.

**Adopted by: Delta Council Board of Directors
November 12, 2018**
