

Proposed Resolution

U.S. Highway 82 Bypass

Delta Council would like to thank our Congressional Delegation and the Mississippi Department of Transportation for securing the funding for the completion of the 15.6 miles of the U.S. Highway 82 Greenville Bypass Freight Corridor, which will complete the U.S. Highway 82 Bypass from the Greenville Bridge to Leland. Special acknowledgment goes to Central District Commissioner Willie Simmons, who initiated the grant application that was successful from the U.S. Department of Transportation.

Delta Council also thanks the Mississippi Legislature for naming the bypass in honor of the late Anse Dees, who was a Greenville businessman and Delta transportation advocate for many decades.
