Resolution

2018 Farm Bill – Rice

Delta Council joins with USA Rice in support of the following policies and principles:

- Support a viable countercyclical price protection program with a rice floor in statute.
- Support policy:
 - Provide reference prices based on risk of price declines and relative to cost of production.
 - PLC assistance should be decoupled from production and paid on historical, pre-2014 rice base acres.
 - To expand the family farm exemption by redefining family.
 - Restrictions on eligibility based on lineal family descent should be eliminated.

Adopted by: Delta Council Board of Directors
June 1, 2018
